August 27, 2009

Abstract

Rnw template

1 Sweave

1. Create your own template Sweave document.

2. Title: course name, homework number

3. Author: name, email, include a link to your personal academic webpage if you have one. [1]

4. Abstract: short description on the homework and any notes you might want to add

5. A sample homework solution: meaning a short description and some code. For example, how to sum $2 + 3$.

---

[1]You will probably make one this semester on the PHP course.

```
> 2 + 3

[1] 5
```
